- Slack
- Claude Design

EXPERIENCE

VELOX LABS — UI/UX Designer / QA

Jan 2026 - Present

- Working on complex SaaS products, including HRMS and telecommunications systems, contributing to both UI/UX design and quality assurance.
- Designing user interfaces and maintaining consistent design systems for enterprise-level and AI-powered products.
- Working on product requirements, user flows, wireframes, and high-fidelity UI designs to create intuitive user experiences.
- Collaborating with product managers, developers, and AI engineers to translate business requirements into practical design solutions.
- Performing manual testing across different application modules to verify functionality, user flows, and UI consistency.
- Identifying, reproducing, documenting, and reporting bugs with clear steps and expected results for developers.
- Using Laravel Telescope and database verification to investigate issues, monitor application activities, and validate data during testing.

GLOBALY HUB — UI/UX Design Intern

July 2025 - Nov 2025

- Worked on UI/UX design projects, including Agentics CRM, EdTech platforms, and social media marketplace applications.
- Conducted user research, created user flows, wireframes, and high-fidelity prototypes to translate requirements into intuitive interfaces.
- Designed responsive layouts and reusable components to maintain visual consistency across desktop and mobile platforms.
- Collaborated with team members to understand project requirements, review designs, and improve user experience through feedback.

TECH AXIS — UI/UX Design Training

Jan 2025 - April 2025

- Completed a four-month UI/UX design training program covering design thinking, user research, wireframing, prototyping, and usability principles.
- Applied design concepts through practical projects, creating user flows, wireframes, and interactive prototypes using Figma.

Hajir Pro HRMS System — UI/UX Designer/QA Engineer

Jan 2026 - Present

- Designed across the Company, Candidate, and Super Admin sides of the Hajir web platform — attendance, leave, payroll, approvals, employee administration, ATS / recruitment, reports & analytics, and policies / notices for HR admins, employees, and platform administrators.
- Extended core HR workflows to the Hajir mobile app, including attendance, leave, payslips, employee information, notifications, and account / employer switching, adapted for on-the-go use.
- Resolved critical UX friction points across PIMS, Attendance, Standup, Payroll, Inbox, Grievance, and Geo-fencing modules, improving workflow efficiency for both administrators and employees.
- Built and maintained a consistent design system and reusable UI patterns across Web, Mobile, and Super Admin.

Dialinger Telecommunication Platform — UI/UX Designer

Jan 2026 - Present

- Designed the Dialinger Company and Super Admin web platforms end to end — onboarding, subscription & billing, calling & messaging, phone number management, CRM & IVR configuration, and platform administration.
- Extended core communication capabilities to the Dialinger mobile app — calling, contacts, messaging, Unified Call Box, and settings — adapted for mobile usage patterns while staying consistent with web.
- Structured complex telecom concepts, including IVR configuration, number provisioning, and call states, into clear, understandable user journeys
- Built reusable UI patterns and maintained a consistent design system as new features shipped across both platforms

Petsy Social Media Platform — UI/UX Designer

July 2025 - Nov 2026

- Designed Petsy. an end-to-end mobile social media and marketplace ,by conducting user research and persona development to create a seamless ,engaging experience for pet owners and business.

Agentics CRM — UI/UX Designer

July 2025 - Nov 2026

- Design end-to-end solutions for Agentics CRM software,user research and wireframing Userflow, Information Architecture , Design System to create intuitive designs.

Job Portal — Web Developer/Designer

Dec 2024 - Jan 2025

- Designed a dual-sided web platform connecting job seekers and recruiters, plus a dedicated admin panel for managing companies and listings.
- Job seeker flow: search and filter jobs, view job details, and apply, with a profile and application history
- Recruiter flow: post and manage job listings, then view, review, and shortlist or reject applicants from a dashboard.
